CHAPTER SIX The Conception of the Subconscious BY BERNARD HART, M. B., M. R. C. S. Assistant Medical Officer, Long Grove Asylum, Epsom THE conception of the subconscious has of recent years acquired a dominating position in psychiatry. The utility of this conception in the co-ordination of our knowledge, and its fruitfulness in suggesting new lines of research, have become so obvious, that the opposition which it at first aroused has been almost altogether overcome. Considerable disagreement, however, still exists as to the precise meaning to be ascribed to the term. What is the nature of a subconscious process--is it a physical or No fact of abnormal experience can by itself prove that psychological and not a physiological explanation is needed; it is a philosophical problem which must be settled by principle before the explanation of the special facts begins. --Munsterberg. mental phenomenon?...
