

The Future of Union Organizing

By Employment Labo Subcommittee on Health

Createspace, United States, 2015. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.This morning we will broadly examine the future of union organizing. It is no secret the number of workers electing to join a union has declined sharply in recent decades. Since 1983, the share of all workers belonging to a union has dropped from roughly 20 percent to less than 12 percent. Today, fewer than 7 percent of private sector workers are union members. There has been an unhappy story, even in this recovery, for the middle class. In the early days of this economic recovery, for every 1 dollar of growth that went to higher wages for America s workers \$70 went to corporate profits. The evidence broadly suggests that when people engage in collective bargaining that those results are considerably better. On the average, members of unions earn 27 percent more than those who don t belong to a union for similar work. Members of unions are 28 percent more likely to have health care benefits provided for them at work. They are 64 percent more likely to have a pension plan when they retire. These...
