Black Garnet Press. Paperback. Book Condition: New. Paperback. 304 pages. Dimensions: 8.9in. x 5.9in. x 0.9in. An aging Russian cargo plane descends to a remote airstrip in Kazakhstan. Its mission is a nightmare: exchange 1,300 pounds of gold for an equal amount of weapons-grade uranium—the first crucial step in an Iranian plot to build and detonate a nuclear bomb in the heartland of America. Col. Ashkan Gharabaghi, an officer of Iran's murderous Quds Force, stands near the runway, studying the aging planes lumbering approach. Elizabeth Mallory watches, too. The brilliant young CIA agent has ridden gunpowder over long stretches of desolate, fallout-poisoned Kazakh countryside to try to stop the export of the black market uranium. Time is short. The sun is setting. The nuclear bomb material sits at the end of the dusty runway, ready for loading. This is how Tom Reeds frighteningly real thriller, *The Tehran Triangle*, takes off. In his riveting first novel, Reed, a noted historian, fuses a lifetime's experience in nuclear weaponry and spy craft to a story deeply wedded to fact. The book's harrowing outcome will be remembered and feared long after it has been read. Reed is a former Secretary of the Air Force under two presidents and the youngest-ever Director of the National Reconnaissance Office, an organization so secret that its very existence was not revealed until the end of the Cold War. He plunges thriller fans into the harrowing chessboard of international surveillance and intelligence gathering. Farsi-speaking Agent Mallory emerges as the CIA's point person on Iran. Gharabaghi rises in the Quds ranks, becoming a powerful colonel, sponsored by his long-time friend Mansoor Alizadeh, the President of the Iranian Republic. Mallory's perilous investigation of Iranian penetration of the US brings her to a most unlikely hub of terrorist activity: a machine shop servicing the...
