Reviews

Merely no words and phrases to describe. I really could comprehended almost everything using this created e pdf. Your daily life period will be change once you full reading this ebook.

(Mr. Ladarius Stoltenberg)

HIGHER MATHEMATICS C-(SECOND EDITION) (VOL.2)

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment.Pages Number: 372 Publisher: Beijing Normal University Press Pub. Date :2008-3-1. This book points the next two. including limits on the volume content and functions of one variable calculus; the next volume of content including ordinary differential equations. series. vector algebra. analytic geometry of space. as well as multi-function determinant calculus and matrix profile. Basic concepts of the book clear. strong applications. the chapters are equipped with a number of exercises. and integrated with a unit summary and examples. in order to facilitate teaching and the book the reader grasp the basic principles and methods. This book is the author summarizes many years of teaching and practice. as institutions of higher learning biology. chemistry. materials undergraduate and junior college students. but also for the biological and chemical workers. Contents: Chapter VII of the ordinary differential equations the concept of differential equations 7.1 Exercises 7.1 7.2 Solution of first order differential equations (a) Problem 7.2 7.3 Solution of first order differential equations (b) Exercise 7.3 7.4 higher order differential equations of special solution of Problem 7.4 Summary and synthesis unit examples (a) 7.5 the general solution of linear differential equations Exercise 7.5 7.6 the structure factor of homogeneous linear second order ordinary differential equation solution of Problem 7.6 7.7 the second-order constant coefficient non-homogeneous linear differential equation solution Exercises 7.7 7.8 Exercise 7.8 Solution of the Euler equations and integrated unit Summary Example (b) series 8.1 of Chapter VIII of the concept and nature of the series of exercises 8.1 8.2 positive series of sub-convergence method Exercises 8.2 8.3 Any items of sub-series convergence method. absolute convergence and conditional convergence exercises and comprehensive summary of Example 8.3 unit (A) 8.4...
